### ***Investment Objective***

Investment objectives have a hierarchy, i.e. objective 2 cannot compromise objective 1; objective 3 cannot compromise objectives 2 or 1.

#### **Cemetery Common Trust Fund**

1. Provide the highest possible safety of the principal.
2. Earn income to maintain the purchasing power value of the fund.
3. Earn income to provide for perpetual care of the cemeteries.

#### **Trust Funds and Reserve Funds with Designated Agent(s)**

1. Provide the highest possible safety of the principal.
2. Maintain fund liquidity to allow transfers within a reasonable period without loss of principal.
3. Earn income to maintain the purchasing power value of the fund.

#### **Trust Funds and Reserve Funds without Designated Agent(s)**

1. Provide the highest possible safety of the principal.
2. Allow for investment changes in keeping with the legislative schedule without loss of principal.
3. Earn income to maintain the purchasing power value of the fund.

Reserve funds and public money expendable trust funds may be invested in common to better meet these objectives provided that they are maintained separately on the books of the town. Movement of such funds to or from a common pool must be approved by a vote of the trustees.

### ***Investment Authority***

All trusts shall be administered by the trustees of the trust funds of the Town of Lee elected or appointed in accordance with RSA 31:22. Disbursement of funds shall require the signature of at least two of the trustees.

### ***Responsibilities***

The trustees of the trust funds of the Town of Lee shall be directly responsible for selecting trust fund and reserve fund investments.

### ***Approved Investments***

Reserve funds and trust funds shall be invested in:

- deposits in federally or state-chartered banks or associations authorized to engage in a banking business in New Hampshire,
- or in bonds of the state of New Hampshire,
- or in participation units in the public deposit investment pool established pursuant to RSA 383:22,
- or in obligations with principal and interest fully guaranteed by the United States government.

- notes of the state of New Hampshire,
- deposits in federally or state-chartered credit unions in New Hampshire.

All deposits shall be in the name of the Town of Lee and shall appear on the books as a *trust fund* or *capital reserve fund* as appropriate.

### **Constraints**

All deposits in banks, associations, or credit unions must be insured, or the deposits must be backed by Eligible Collateral that is provided to the town and has a market value of at least 100% of the deposit. Eligible Collateral is:

1. Obligations issued by the United States of America, an agency thereof or a United States government sponsored corporation or obligations fully insured or guaranteed as to the payment of principal and interest by the United States of America, an agency thereof or a United States government sponsored corporation. This collateral is to be held by a third party.
2. Obligations partially insured or guaranteed by any agency of the United States of America, at a proportion of the Market Value of the obligation that represents the amount of the insurance or guaranty. This collateral is to be held by a third party.
3. An irrevocable letter of credit issued by the Federal Home Loan Bank of Boston with an expiration date after the last day of the maturity grace period for any time deposits covered.

Demand deposits covered by insurance must be kept from exceeding the insurance coverage limit by collateralization or by transfers to other institutions. Time deposits such as Certificates of Deposit (CD) must not be established with amounts and interest rates which could cause the balance to exceed the insurance coverage at any time during the term unless excess amounts can be withdrawn without penalty or there is a collateralization agreement in effect with the institution.

Time deposit maturities will be selected to match the expected cash flow requirements and will be appropriate for the interest rate environment. Terms will not exceed five years. All time deposits will be made with the full expectation of being held to maturity. Negotiable certificates of deposit will not be purchased for resale.

Demand deposits and maturing time deposits will be planned to provide a balance with a significant conservative margin at the time that expenditures are expected.

### **Cemetery Common Fund (Common Fund 1)**

1. A part of the fund must have sufficient liquidity to allow for withdrawals that may occur without loss of return. This liquid reserve must be at least 8% of the total common trust fund.

A copy of the MS-9 shall be published in the town report.
