# WHAT YOU CAN DO TO BE PREPARED

---

Use these checklists to be better prepared in the event of an emergency and also think about:

If you have to leave home quickly, don't forget medications, eyeglasses and/or hearing aids.

Keep your "Grab Bag" in the trunk of your car so you can be ready to leave quickly if necessary.

If you lose power, eat the food in your refrigerator before eating your emergency food supply.

## Make a "Grab Bag"

- One day's clothing and shoes for each family member
- Personal care products (e.g. toothbrush, feminine hygiene products, diapers, towel)
- Blanket or sleeping bag
- Flashlight & extra batteries
- Granola bars/Trail mix
- Extra set of car and house keys
- Cash
- Prepaid phone card
- Copies of important documents: medical and prescription information, passports, birth certificates, drivers license, insurance papers and bank account information

## For Your Car

- Bottled water & food (granola/energy bars)
- First aid kit
- White distress flag
- Flashlight & extra batteries
- Flares/light sticks
- Blanket or sleeping bag
- Emergency reflective blanket
- Jumper cables, tire jack, spare tire
- Shovel
- Maps

## For Your Home

- Water: 1 gallon, per person, per day
- Can opener (non-electric)
- Battery powered radio
- ABC-type fire extinguisher
- Smoke & carbon monoxide detectors
- Prescription medications
- Wired telephone (not cordless)
- First aid kit
- Flashlight & battery powered lantern
- 3-day supply of canned or dried foods
- 3-day supply of baby food and formula

## Other things to think about

- Post emergency numbers and information where it is easily accessible.
- If there is a major storm where flooding is reported, call ahead to see if your normal route is passable or not. This can be done by a simple call to your neighbor or someone already at home.
- Obey any closed road signs. As little as 2 feet of water running across the road can move your car to the side.
- If advised to evacuate your area, don't wait. Water levels rise rapidly.
- To prepare your animals for an emergency, have animal carriers, animal feed and animal medication on hand. Also, ID Chip your pet. This is the best way to make sure your pet is returned to YOU!
- If your basement has flooded in the past, the chances are it will again. Have a sump pump available for this.
- Make sure your generator it is run outdoors. If alternate heat sources are available, ensure sufficient energy products are on hand.
- Make arrangements with relatives ahead of time in case of an evacuation of your home. If you need a place to go, contact the Emergency Operation Center to see if our shelter has been open or if a shelter in the area is open.
- If you have a disability and are in need of assistance in an emergency, please call our fire department at 603-659-5411.
